German Claims of Land Victories Still Growing.

(By Times Special Cable.)

London, Feb. 22.—Germany's submarine blockade continues to be the chief topic of interest in the United Kingdom, although Britah shipping apparently is moving with usual freedom. The Sear dinavian neutrals, however, are showing much alarm over the sits stdon, a great sensation having been caused in those countries by the torpedoing of the Norwegian steamship Belridge off Folkeston in the contraction of the Norwegian steamship Belridge off Folkeston in the contraction of the Norwegian steamship Belridge off Folkeston in the contraction of the Norwegian steamship Belridge off Folkeston in the contraction of the Norwegian steamship Belridge off Folkeston in the contraction of the Norwegian steamship Belridge off Folkeston in the contraction of the Norwegian steamship Belridge off Folkeston in the contraction of the Norwegian steamship Belridge off Folkeston in the Contraction of the Norwegian steamship Belridge off Folkeston in the Contraction of the Contraction

last week.

Representatives of the Scandinavian Governments are holding another conference to-day, the outcome of which is awaited with much interest by neutral shippers.

The question of a naval convoy, it is understood, is being seriously considered at the conference, but the guarded comments of the newspapers show that it is clearly recognized that such a step might lead to war.

The question of the right of the crews of five Danish ships to refuse to sail for English ports is now before a court, which is our-sidering their excuse that Germany is not likely to respect a neutral flag.
